

LABOUR'S AFFILIATED EDUCATION SOCIETY

Our priorities for the election manifesto

- ***Keep state education safe in our hands.*** No further privatisation of education services or schools.
- ***Introduce a single status for all secondary schools.*** Impose a moratorium on Academies and Trusts. End the impoverished curriculum and restore the full subject range.
- ***End rejection at 11*** and make it illegal to discriminate against the admission of any pupil on grounds of ability, aptitude or faith.
- ***Be tough on the causes of NEETs****. What is happening in the classroom to produce them? A recent report demonstrates that the current system is 'not fit for purpose'. The emphasis on targets and league tables leads to concentration on C/D borderline students. This is unfair to students of all abilities. * (Those not in education, employment/ training)
- ***Limit all class sizes to 20 by 2020***
- ***Replace SATs with a streamlined system of assessment and a restoration of faith in the professionalism of teachers.***
- ***Education policy to be supported by educational research.***
